PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building and deploying responsive web applications using React.js, Node.js, Express.js, MongoDB, JavaScript, and TypeScript. Developed end-to-end web applications with REST APIs, authentication, database design, CRUD operations, third-party integrations, and deployment. Built a 20+ page e-commerce platform featuring secure authentication, payment integration, inventory and order management, wallet and referral functionality, and admin analytics. Strong foundation in problem-solving, data structures and algorithms, debugging, and writing clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Frontend: React.js, React Hooks, Redux, Redux Toolkit, React Router, Context API, Axios, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, MVC Architecture, Middleware, Asynchronous Programming, Socket.IO, Nodemailer, Multer

Databases: MongoDB, Mongoose, MongoDB Aggregation Pipeline, PostgreSQL

Authentication & Security: JWT, OAuth 2.0, Role-Based Access Control (RBAC), bcrypt

Problem Solving & DSA: Arrays, Strings, Linked Lists, Stacks, Queues, Hash Tables, Recursion, Binary Search, Sorting Algorithms, Trees, BST, Heaps, Tries, Graphs

Tools: Git, GitHub, Postman, Vite, npm

Deployment & Integrations: Vercel, Netlify, Render, MongoDB Atlas, Cloudinary, Razorpay, PDFKit, ExcelJS

EXPERIENCE

Full Stack Developer Trainee (MERN Stack) — Brototype

Kozhikode, Kerala, India | Self-paced, project-based training program Aug 2024 – Dec 2025

- Completed a structured, project-based MERN stack training program, developing hands-on experience with React, Node.js, Express.js, MongoDB, REST APIs, and Git.
- Designed and developed Cosmix, a 20+ page e-commerce platform using Node.js, Express.js, MongoDB, EJS, and MVC architecture, taking ownership of database design, backend development, frontend integration, and feature implementation.
- Built and integrated RESTful APIs, implemented asynchronous operations, managed application data and business logic, and followed Git-based version control throughout development.
- Practiced debugging, problem-solving, deployment, and application development workflows through multiple independent projects.

PROJECTS

Cosmix — Full-Stack E-Commerce Platform

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, EJS, JWT, OAuth 2.0, Razorpay, Nodemailer, REST APIs

[GitHub](#) | [Live Demo](#)

- Designed a 20+ page full-stack e-commerce application (Node.js, Express.js, EJS, MongoDB, MVC) covering customer and admin workflows.
- Built customer-facing features: product search, filtering, sorting, pagination, wishlist, cart, coupons, offers, and checkout via Razorpay and Cash on Delivery.
- Implemented JWT and Google OAuth 2.0 authentication with OTP verification, bcrypt password hashing, and forgot/reset password flows via Nodemailer.
- Built 6 admin modules (Products, Categories, Orders, Users, Offers, Coupons) with inventory management, low-stock alerts, order lifecycle, and refunds.
- Developed wallet and referral reward systems, downloadable PDF/Excel invoices, and an admin analytics dashboard with sales charts and date-range filtering.
- Optimized search, filtering, and reporting using MongoDB Aggregation Pipeline and Mongoose; implemented structured error handling for async operations.

Budget Maintenance — Personal Finance Application

Tech Stack: React, Node.js, Express.js, MongoDB | [Live Demo](#)

- Developed a personal finance application for recording, categorizing, and managing income and expenses, with full CRUD via a RESTful backend and MongoDB.

Student Details — Management App

Tech Stack: React, Vite, Node.js, Express.js, MongoDB, TypeScript | [Live Demo](#)

- Built a full-stack CRUD application with a React (Vite) frontend and a Node.js/Express/MongoDB backend for managing student records — creating, updating, viewing, and deleting student information.

Weather Application

Tech Stack: Node.js, REST API | [Live Demo](#)

- Developed a Node.js weather service integrating a public weather API to retrieve and display live weather information.

CERTIFICATIONS

- Introduction to MERN Stack — SkillUp (Simplilearn)
- React JS for Beginners — SkillUp (Simplilearn)

EDUCATION

B.Sc. Chemistry — University of Calicut (DGMMES Mampad College)

Kerala, India Jun 2021 – Mar 2024
